

Resolution 10-11-21

A resolution to amend certain provisions of Table II of the Milbank Municipal Code regarding the location of stop or yield signs on streets and avenues.

THEREFORE, BE IT RESOLVED that Table II of the Milbank Municipal Code shall be amended to include the following:

Stop Intersections:

- 3rd Avenue and Grant Street, erect stop signs, both Northbound and Southbound on Grant Street at 3rd Avenue.

BE IT FURTHER RESOLVED that appropriate traffic control signs shall be erected in accordance with the provisions of this resolution.

RE: Third Ave/Grant Street Traffic Control

Dear Administrator Forman:

During the construction of our new employee facilities, Valley Queen requested to have Yield signs installed at the intersection of Third Ave and Grant Street due to safety concerns with construction traffic. With construction now complete and our employee facilities relocated to the corner of Railway Ave and Grant Street, we have seen a significant increase in the amount of vehicle traffic at the Third Ave and Grant Street intersection.

Valley Queen would like to request that permanent traffic control signs (Stop signs preferred) be installed at this intersection of Grant Street and Third Ave for the North and South bound traffic. Valley Queen would install the Stop sign for South bound traffic as this is Valley Queen property if the City of Milbank would like Valley Queen to do so.

Thank you for your consideration of this request. Please feel free to contact me with any questions or concerns regarding this request.

Sincerely,

A handwritten signature in blue ink, appearing to read "Evan Grong", with a stylized flourish at the end.
